DESPERATE.
BUT A BOY
IS BANDIT
Twice Robs Bank in One Month.

Murders Policeman and Ruthlessly Shoots Down Cashier.

Driven to Bay by Pursuers Young Desperado Kills Himself.

Youthful "Pal" Tells of Their Plans for Brazen Daylight Hold-up.

CASHIER GIVES ALARM.
Harry Wilson, cashier of the robbed bank, spread the alarm and a crowd of citizens, armed with shotguns, rifles and revolvers, pursued the boy bandits across the fields. In attempting to swim the Kaw River, the boys lost ground, and a few minutes later, the boy was at their heels. McKay succeeded in reaching the river, but Bullock, writhing in pain from his falling partner's hand, fell into a patch of wood.

THREATEN LYNCHING.
Meaning the crowd threatened to lynch McKay. Officers hurried him to Lawrence in an automobile and placed him in jail. Bullock's previous hold-up of the Bank and the murder of Policeman Wilson Fringe took place on October 11.

SEVEN COMPANIES OF TROOPS GUARD NEGRO.
March With Him Through Howling Mob on Streets of Cairo, and Get Him Safely Out of the City—Mayor Slept While Riots Were at Height.

CAIRO (Ill.) Nov. 12.—With the negro, Arthur Alexander, last of those arrested in connection with the murder here on Monday of Miss Anna Polley, safe out of town, and some 50 members of the Fourth Regiment of the Illinois National Guard on duty in the streets and about the jail tonight, the mob spirit that has held Cairo for four days seems quieted. Every known danger point is occupied by troops.

DEGREE FOR PRESIDENT.
Women Faint in Crush That Witnessed Honor Bestowed on Mr. Taft at Hartford.

HEARS OF SUGAR CASE.
Associated Press Night Report.
HARTFORD (Cl.) Nov. 12.—It became known here tonight that President Taft on his trip from Washington to Philadelphia last night discussed with Atty.-Gen. Wickham many phases of the so-called sugar trust frauds in New York City.

ISSUES CONSERVATION ORDER.
Secretary Ballinger Without Waiting for Legislation, Withdraws Valuable Water Power Rights.

MURDER AVERTED.
Associated Press Night Report.
STOCKTON, Nov. 12.—(Exclusive Dispatch.) When the prisoners from the drunk cell in the County Jail were brought into the City Court today, it became known that another murder had been averted in that jailhouse.

DR. HARRIETTE KEATINGE DEAD.
Associated Press Night Report.
NEW YORK, Nov. 12.—By the death here of Dr. Harriette Keatinge, America has lost one of her most noted women physicians. She was the pioneer woman doctor of the Gulf States, but of late years had practiced in this city.

RIOT QUELLED.
Associated Press Night Report.
NEW YORK, Nov. 12.—(Exclusive Dispatch.) John G. Carlisle, former Secretary of the Treasury, is a private patient in St. Vincent's Hospital. At the hospital tonight, no information could be obtained, inquiries being referred to Dr. Joseph D. Bryant, Mr. Carlisle's private physician.

JOHN G. CARLISLE ILL.
Associated Press Night Report.
NEW YORK, Nov. 12.—(Exclusive Dispatch.) John G. Carlisle, former Secretary of the Treasury, is a private patient in St. Vincent's Hospital. At the hospital tonight, no information could be obtained, inquiries being referred to Dr. Joseph D. Bryant, Mr. Carlisle's private physician.

AUTO PLUNGES THROUGH DRAW INTO CHICAGO RIVER.

MYSTERY BURIED IN RIVER OOZE.
GRIM SECRET IS HELD FAST BY MUDDY WATERS.

It May Never Be Definitely Known Who Were the Passengers in the Ill-Fated Auto That Plunged Through Opened Drawbridge in Chicago—All Clues Fail.
CHICAGO, Nov. 12.—(Exclusive Dispatch.) Until the Chicago River, or the Illinois and Michigan Canal releases its clutch upon the bodies, it will not be known definitely who were the passengers in the ill-fated automobile which plunged into the river at the Jackson boulevard crossing, where a bridge was open.

PITILESS PROSECUTOR GOADS MME. STEINHEIL.
Paris Woman Charged With Double Murder, Painted in Blackest Colors in Plea for Her Conviction, Raises Clinched Fists in Mute Protest.

PARIS, Nov. 12.—(Exclusive Dispatch.) The reactionary newspapers insinuated pointedly that Mme. Steinheil murdered Felix Faure, President of the Republic, who, as has been stated often, died while she was present. These newspapers say openly that Mme. Steinheil was the murderer's agent of the Jewish party in dispatching President Faure, that she was engaged by friends of Major Alfred Dreyfus to inveigle Faure, to charm him and to end his existence because he opposed the reopening of the Dreyfus case and the revision of the then Captain's trial and sentence.

HEAVY SNOW IN COLORADO.
Associated Press Night Report.
DENVER, Nov. 12.—A heavy wet snow is falling over Colorado, North-eastern Wyoming, Southern Utah and Northern New Mexico and Arizona. Pueblo and Colorado Springs report six inches of snow, and in the mountains the fall is somewhat heavier. Telegraph service was somewhat crippled during the morning.

BIG SIX ACCUSED.

Sugar Trust Officials Indicted.
Twenty-Thousand-Dollar Superintendent Is Charged With Conspiracy.
Arrest Follows Quickly on Heels of Resignation.
Gives Bail.
Plot to Defraud Government by False Weights Alleged.
Rival Bury.

NEW YORK, Nov. 12.—(Exclusive Dispatch.) James F. Henderson, for many years general secretary of the American Sugar Refining Company, was arrested in Brooklyn today, under an indictment found on Thursday of last week by the Federal grand jury. He was released on \$50,000 bail, pending a hearing next Monday.

MORE INDICTMENTS SOON.
How great the amount is was not disclosed. It was understood that it will reach several hundred thousand dollars. When John Arbuckle was asked about the investigation, he said: "I don't care to be interviewed about a report like that."

CELEBRATED CASE.
PITILESS PROSECUTOR GOADS MME. STEINHEIL.
Paris Woman Charged With Double Murder, Painted in Blackest Colors in Plea for Her Conviction, Raises Clinched Fists in Mute Protest.

PARIS, Nov. 12.—(Exclusive Dispatch.) The reactionary newspapers insinuated pointedly that Mme. Steinheil murdered Felix Faure, President of the Republic, who, as has been stated often, died while she was present. These newspapers say openly that Mme. Steinheil was the murderer's agent of the Jewish party in dispatching President Faure, that she was engaged by friends of Major Alfred Dreyfus to inveigle Faure, to charm him and to end his existence because he opposed the reopening of the Dreyfus case and the revision of the then Captain's trial and sentence.

HEAVY SNOW IN COLORADO.
Associated Press Night Report.
DENVER, Nov. 12.—A heavy wet snow is falling over Colorado, North-eastern Wyoming, Southern Utah and Northern New Mexico and Arizona. Pueblo and Colorado Springs report six inches of snow, and in the mountains the fall is somewhat heavier. Telegraph service was somewhat crippled during the morning.

Cashmere and knitted golf gloves for women and children; just the thing for these cool mornings; a good assortment of colors; all sizes; regular 50c gloves. On sale today at 35c.

WASHINGTON.
BINDER TIGHTER
NATIONS' TIES.

Prepare for Great Pan-American Conference.

Governors Expect to Issue Programme Soon.

Discussion of Airships and Wireless Certain.

(ASSOCIATED PRESS NIGHT REPORT.)

WASHINGTON, Nov. 12.—The fourth of a series of great conferences that are steadily strengthening the bonds between the republics of the Western Hemisphere is to be held in Buenos Aires, Argentine Republic, between the 15th and 20th of next July, and already the Argentine government, which is to be the host in this case, has been doing much to prepare for the meeting.

The date originally fixed for the Fourth International Conference of American States was May 29, 1910, but the fact that a great exposition was to be held in the same capital in that month, which might overshadow the importance of the international conference, led to the postponement of the latter. Moreover, the month of July, being in the middle of the Argentine winter, is certain to make the visit to Buenos Aires more agreeable to the delegates from the north.

The governing board of the Bureau of American Republics already has dispatched to every South and Central American capital a tentative programme of the subjects to be considered by the conference, and the various foreign offices have been at work upon the subject of the programme. Much progress has been made, and it is hoped that it soon will be possible to promulgate the final programme, which, according to preliminary indications, will not vary considerably from that prepared by the board of government.

LARGELY EDUCATIONAL.
These preceding conferences have moved along the lines of least resistance, that is to say, the delegates have adopted as basic principles such propositions as have secured the widest adoption of the great majority, but no effort was made to coerce the minority of the states into acceptance of ideas which a first presentation would be unobtainable to them. Instead, when there were of real importance, they were thoroughly debated, and then recommended for further consideration at the next conference.

In this way the conferences have been made educational, and experience has shown that a sound proposal is almost certain to secure adoption. No it happens that the tentative programme already has figured in the debates of the preceding conferences. Thus, for instance, will again come up the subject of compulsory arbitration.

While the Hague conference accepted this principle, it declined to recommend a general treaty of arbitration, though strongly urging the states represented, the making of special treaties among themselves to carry out the idea. The United States already has done this with eleven of the other American republics, and the subject will come before the fourth conference, and receive further encouragement at the beginning of the proceedings, when each delegation will be required to report the action that has been taken by their respective governments to carry out the wish of the third conference.

UNIFORM CONTRACT SYSTEM.

Another problem, which will be again thrashed out, will be the establishment of uniform contract system of connecting the principal ports of the American countries on the basis of a uniform system of contracts.

The Bureau of American Republics is to be strengthened and continued for another ten-year term of office, and it is hoped that the Commission of International Jurists will be able to report something in the nature of a code of international law that will be adopted for the government of the American republics in their diplomatic relations. This report is satisfactory to the fourth conference, and it is expected to have the greatest results in the settlement of any disturbing questions that may arise in the future between the republics.

The Pan-American Railway, postal rates and parcel posts, a uniform system of collection of census and commercial statistics and consular methods, supervision of food supply, the protection of the public health, and the regulation of rates of international exchange are other matters left by the preceding conference for the consideration of that which is to meet at Buenos Aires.

NEW SUBJECTS.

New and up-to-date subjects are wireless telegraphy and aerial navigation, for it has been to be realized by the governing board that there soon will be need of regulations for the government of these new modes of communication. Also, as effort also will be made to arrive at some sound basis of regulation of foreign immigration and naturalization, and a definite real neutrality in time of war.

An effort will be made to obtain the cooperation of all the Pan-American states in the celebration of the centennial of the signing of the Declaration of Independence. Most of the centennaries all in, or around, 1810. The success of the interchange of professors and students between American and European universities has resulted in the projection of a plan for a similar exchange between the American republics, and truly arrangements will be made for general participation of the republics in the centennial celebration upon the opening of the Panama Canal.

The prospects for a successful conference are bright in the opinion of the officials of the Bureau of American Republics. One cloud that threatened was the breach of relations between Argentina and Bolivia. But it now making to reestablish these relations should prove abortive, yet, as he has Argentina on this occasion would regard herself as the representative of all the American republics, and, waiving all personal considerations, graciously extended to Bolivia an invitation which would secure the attendance of her delegates at the conference.

REPORTS ON SAN PEDRO.

Archer Work There Is Ninety-seven Per Cent. Completed, Announces Chief Engineer.

(BY DIRECT WIRE TO THE TIMES.)

WASHINGTON, Nov. 12.—(Exclusive Dispatch.) Chief of Engineers in an annual report, gives considerable praise to San Pedro Harbor. No ap-

DOWN DROPS
ORANGE CROP.

Government Report Shows Slight Falling Off in Year's Yield.

(BY DIRECT WIRE TO THE TIMES.)
WASHINGTON, Nov. 12.—(Exclusive Dispatch.) The crop report for November gives the condition of oranges in California on November 1 as 73.5, as compared with 81.9 last year, and lemons 90, as compared with 92.9, as compared with 84 last year.

The apple and pear production in California is the same as last year, but grapes yielded about 1 per cent better. Potatoes are yielding 125 bushels to the acre against 187 last year, and the total crop in the state is put at 8,000,000 bushels, the quality also being better. Sweet potatoes are yielding 50 per cent more, and better quality.

Corn yielded 24.8 bushels, as compared with an average of 23.4 for the entire country.

proprietor is asked for inasmuch as the entire authorized cost, \$2,500,000, has been appropriated, and the project is 97 per cent completed. The available balance, \$163,888, will be expended in building up the breakwater to its full height under the contract. Little progress has been made in construction of bulkheads, etc., owing to the financial stringency. It is expected that the Chief Engineer, "that facilities for commerce will be greatly developed during the coming year."

To June 3, 2,304,000 long tons of some had been deposited in the structure under the present contract, partially completing it over a length of 864 feet.

The engineer states that commerce of Wilmington is estimated at \$25,153,000. Savings in freight due to improvement of harbor, he says, is large, but cannot be definitely stated. There was available July 1, 1907, for work at Wilmington \$734,448. For the coming year the engineer would like \$4,000,000 additional. To complete the work at San Luis Obispo, \$100,000 is requested. There is unexpended at San Diego \$20,871, and \$20,871 more is asked for next year.

MAY GET IT.

MANY HARBORS
NEED MONEY.ESTIMATES FOR IMPROVEMENTS
TOTAL HUGE SUM.

Gen. Marshall, Chief of Engineers of Army in His Report Recommends Spending More Than Twenty-seven Million Dollars on Pacific Coast and Island Projects.

(ASSOCIATED PRESS NIGHT REPORT.)

WASHINGTON, Nov. 12.—Gen. Marshall, chief of engineers of the army, in a report today made estimates for river and harbor improvements, for the coming fiscal year amounting to more than \$27,000,000. The estimates include the following:

San Luis Obispo harbor, Cal., \$100,000.

Oakland harbor, Cal., \$115,000.

Columbia River, between the foot of the Dalles Rapids and the head of Celilo Falls, \$1,000,000.

Canal at the Cascades, Columbia River, \$150,000.

Columbia and lower Willamette River, below Portland, Or., \$175,000.

Mouth of Columbia River, \$1,500,000.

Pugnet Sound and its tributary waters, \$125,000.

St. Michael Canal, Alaska, \$1,100,000.

Honolulu harbor, Hawaii, \$500,000.

Harbor at Hilo, Hawaii, \$600,000.

For fortifications, the chief engineer submitted estimates to the Secretary of War of \$2,035,546, of which \$1,805,546 was for fortifications in the Philippines.

UNDERVALUATION LARGE.

SECRETARY BLAMES NO ONE.

(ASSOCIATED PRESS NIGHT REPORT.)

WASHINGTON, Nov. 12.—Secretary of the Treasury MacVegh today released an oral report from President Marion Davies of the United States Board of General Appraisers, regarding recent investigation of undervaluation of goods imported through the San Francisco customhouse.

Mr. Davies showed that a particularly large percentage of undervaluation had been found in importations from the Orient. They will not involve the integrity of the customs officials, and the aggregate loss sustained was not estimated.

Mr. Davies was accompanied by Deputy Assistant Attorney-General Frank Laidlaw of the Customs Court Appeals. Later the two men conferred with Atty.-Gen. Wickersham. Secretary Laidlaw is figuring on a "house cleaning" in the appraisal of goods agents. He is looking into the question of their efficiency, and he is inclined to believe some changes in the old methods desirable. Some irregularities in customs are expected to be developed at ports other than New York.

WASHINGTON BRIEFS.

Counsellor's Arm Broken.

WASHINGTON, Nov. 12.—Counsellor De Chambrun, wife of the military attaché of the French Embassy, and sister of Representative Nicholas Longworth, is suffering from a broken arm, sustained in a fall at the embassy last Tuesday. She tripped upon a rug.

To Relieve Rear-Admiral.

WASHINGTON, Nov. 12.—Rear-Admiral Eugene H. Leutze, commandant of the Washington navy yard, will be relieved on November 18, on account of age. He will remain in command of the office until his successor is selected.

PLAQUE STILL THREATENS.

ROCHESTER (N. Y.), Nov. 12.—Surgeon-General Walter A. Wyman in an address before the sanitary officers of New York State today, said that the United States is still threatened with invasion of the plague from India and other points. He said that San Francisco is now the most sanitary city in the United States.

THIRTEEN IS TOO UNLUCKY.
Tragedy of the Moodoo Number Comes Out in Divorce Suit.
[BY DIRECT WIRE TO THE TIMES.]
COLUMBIA (Miss.) Nov. 12.—[Exclusive Dispatch.] Some queer divorce stories were revealed in the Chancery Court here this week. J. H. Cook and wife separated because of thirteen children. The fact was soon developed in this case that Cook only lived with his wife ninety minutes after the marriage ceremony.
"Why?" asked the court. "Because," replied Cook, "I discovered that she had nine children, and I had four, making thirteen." Divorce was granted.
day from a bullet wound inflicted, according to his dying story, by Bertha Lietzky. The woman wanted to marry him, Morley said, and shot him because he refused. The Lietzky woman, who was the cook at the farm, is in jail.
REVOLTING.
SAYS MOTHER SLEW FATHER.
DAUGHTER BELIEVED TO HAVE CLEARED OLD MYSTERY.
Declares That Woman Discovered Evidence of Infidelity of Her Husband and Lured Him to Slaughterhouse Where She Shot Him Twice in the Head.
[BY DIRECT WIRE TO THE TIMES.]
CHICAGO, Nov. 12.—[Exclusive Dispatch.] Telling a revolting story to the police of Chicago today, in which she said the murder of her father at the door of her own mother, who is now insane and in Dunning Hospital, Miss Clara Brodenheyer is believed to have cleared the mystery of the tragic death of Henry Brodenheyer, a jeweler, near Madison, Wis., in July, three years ago.
Brodenheyer's body was found in a clump of hazel bushes near a slaughterhouse. He had two bullet wounds in his head. Mrs. Brodenheyer told the Madison authorities that her husband had gone away from home with a strange man to have a clock repaired. Her story was believed, and this man was supposed to have been the murderer.
Mrs. Brodenheyer said the jewelry store, and with her daughter came to Chicago to live. Recently the mother was committed to Dunning as insane. Inquiry regarding the murder was renewed, and today told her story. She said her mother had discovered evidence of infidelity on the part of her husband, who was 43 years old, and she shot him behind the right ear and in the forehead.
CRIME BRIEFS.
Convicted of Manslaughter.
HOLLYWOOD, Nov. 12.—After being out all night the jury in the case of John Lowry, charged with the killing of "Doc" McIntosh, by kicking him to death, in the jail here, where both were confined for minor offenses, returned a verdict of manslaughter to-day.
Hold Up Whole Hotel.
SALT LAKE CITY, Nov. 12.—Twenty-five highwaymen held up a hotel at Midvale, near here, last night, and robbed ten smaller employees of pay checks and cash aggregating \$600. One covered the crowd with a revolver while his companion swiftly went through the pockets in the crowd.
Robbers Use Dynamite.
WATERTOWN (S. D.) Nov. 12.—The Bank of Norden, S. D., was dynamited today and \$234 taken by the robbers who escaped. The safe and building were wrecked.
Beggars Accused of Murder.
SAN FRANCISCO, Nov. 12.—Joseph Lane and Harry Boyle, crippled beggars, recently arrested on suspicion of having killed Lee Majors on the night of October 12, were formally charged today with the crime of murder. Majors was seen engaged in an altercation with four men and later he was found with his throat cut. At first it was supposed he had committed suicide, but an investigation resulted in the arrest of the two beggars.
SEARCH FOR MISSING WOMEN.
Twenty-five Fellow-Members of New York Church Choir Aid in Determined Hunt.
[ASSOCIATED PRESS NIGHT REPORT.]
NEW YORK, Nov. 12.—Twenty-five young women from the choir of St. Peter's German Lutheran Church in the Bronx are conducting a systematic search to find Emmet Hoffman, 17 years old, who was a member of the choir and whose strange disappearance from his home Monday morning has been unexplained. Each young woman acquaintance has been assigned to travel continuously on a certain street-line or to search through a particular district, while others have been instructed to call at all homes and business places where Miss Hoffman might have gone.
Others are canvassing all institutions to which the girl might have been taken as a victim of an accident.
RECORD CHRYSANTHEMUM.
NEW YORK, Nov. 12.—All records for the cultivation of chrysanthemums were broken by a bloom on exhibition here by the Chrysanthemum Society of America. The flower is sixteen inches in diameter, is remarkably full and of a delicate yellow tinge. It was grown by D. Willis James at Madison, N. J.
COST GAYNOR NOTHING.
ALBANY (N. Y.) Nov. 12.—William J. Gaynor, Mayor of New York, filed a statement with the Secretary of State today in which he avows that he did not expend any money to further his election.

CLEVER WORK SAVES MINER.
Foreman Thought Crushed Beneath Rock, Alive.
His Fellow Use Dynamite to Clear Away Debris.
Let Tons of Earth Slide Into Old Winze.

[BY DIRECT WIRE TO THE TIMES.]
REDDING, Nov. 12.—[Exclusive Dispatch.] Charles Hartman, foreman of the Orofino mine, near Shasta, who was reported as killed yesterday afternoon in a cave-in in the mine and buried forty feet deep in earth and rock, was dug out alive and well at 10 o'clock last night. He suffered only a few bruises, and worked in the mine again this afternoon.
He escaped from death in the most wonderful way in the annals of the Shasta county mines. For seven hours he was imprisoned beneath forty feet of loose earth above him and forty feet of rock that had caved over him. Hartman was in an upraise that was being driven through a shaft. He climbed forty feet up the ladders to pry loose some of the earth that had been shaken up by blasts when he felt the whole mass of rock and earth coming from above.
A timber creaked in the shaft as it was working its way down. He jammed his crowbar under this timber into the side wall, and stuck his pick under it, also. The next moment came an avalanche of rock. He was shielded by the timber above, and crowded against the wall so that he could hardly move. His candle went out. He had fairly good air because the earth in the old shaft had been loosened to the top by the blasts.
Hartman says that he realized that his comrades would be unable to blow open the old winze and let the forty feet of earth below him slide off into the winze, and the rescue be made in a few hours.
That is just what the nine miners at the work of rescue did. They saw that it was impossible to rescue him by the old shaft, and they decided to wheel the debris at the shaft out to the surface through the tunnel.
One of them knew about the old winze. They blew it open with dynamite, and all the rock under the earth that had shot by Hartman in the upraise, or old shaft, slid into the winze. When all the earth below him slipped away, he saw the light of the workers below, and he lost no time in scrambling down the ladder, and walked out into the tunnel alive and well.
MISS BELL IN A HURRY.
Delay in Getting Jury Trial Here, as She is Anxious to Tell Her Story.
[ASSOCIATED PRESS NIGHT REPORT.]
AUBURN, Nov. 12.—The failure of twenty-four of the special venire of twenty-five summoned to appear in court today in the trial of Alice Bell, to respond to their names, led to a postponement of court without any progress having been made.
It is probable that the jurors will go into the mountains to select men, as there is little chance that the requisite number of men familiar with the case will be found along the railroad. This will mean several days' travel for the mountaineers to be summoned as the snow is already heavy in the higher altitudes.
"I am growing very tired of the delay in the beginning of the actual trial," said Miss Bell today. "Since the trial has been held so long, I am growing very tired of the delay, and am anxious to tell my story to the jury and so certain they will believe me, that the delay is wearing."
MRS. PHIPPS WAS RELUCTANT TO PROSECUTE READ WOMAN.
[BY DIRECT WIRE TO THE TIMES.]
DENVER (Colo.) Nov. 12.—[Exclusive Dispatch.] Questions sprung by Attorney C. W. Waterman for the defense in the case of Mrs. Allen P. Read, accused of assaulting Mrs. Phipps and attempting to rob her, brought out the fact that Mrs. Phipps was reluctant to prosecute the woman.
"Mrs. Phipps, did you come here as a witness because of threats of arrest?"
"I do not think it was a threat of arrest."
"Were you told you would be arrested if you would not appear?"
"I asked what would happen to me if it were inconvenient for me to appear," said Mrs. Phipps.
The objection of the District Attorney to Mrs. Phipps' testimony, brought out the fact that Mrs. Phipps was reluctant to prosecute the woman.
"Was there any threat made to deprive you of the children if you failed to testify?"
"None whatever," replied Mrs. Phipps.
"Did the defendant say to you November 9 that if you should get the money and deliver it to her it would prove to Henry Phipps that you cared more for your children than you did for money?"
"She did not," I repeated to you what she said," replied Mrs. Phipps.
Both children—Dorothy, aged 11, and Helen, aged 4, testified to seeing Mrs. Read at the Welcott school. Dorothy testified to saying to Mrs. Read: "I would prefer to remain at my cooking lesson rather than ride in the auto today, if mother is willing."
Mrs. Phipps was willing, and Dorothy continued. Helen said Mrs. Read agreed to do downtown in the big car with her mother and Mrs. Read.
At the close of the afternoon session, Waterman moved dismissal on the grounds that the testimony showed Mrs. Phipps could not have been robbed because she had no money or jewels. The motion was denied.
STATE CLOSED ITS CASE TODAY.
ACCOMPLICE HINTED AT.
[ASSOCIATED PRESS NIGHT REPORT.]
DENVER, Nov. 12.—Mrs. Allen P. Read, who is being tried for attempted extortion of \$100,000 from Mrs. Genevieve Phipps and whose physical condition yesterday compelled an abrupt postponement of the trial, was somewhat better today, and the cross-examination of Mrs. Phipps was resumed.
The possibility that Mrs. Read had an accomplice in her alleged attempt at extortion was brought out today when John R. McDonald, special policeman stationed at the building of the International Trust Company, testified that he saw a strange man walking slowly back and forth in front of the building, and watching the automobile in which Mrs. Read and Mrs. Phipps had driven up.
The dynamite which Mrs. Read had in her hand when she was seized will not be presented to the jury for examination.
"I am told," said the judge, "that there is only one chance in a thousand of the dynamite exploding. The court does not care to take that chance in this crowded courtroom."

A Timely Purchase
Representing Ribbons Valued At 35c to 75c for 25c

Understand that we bought them so we can sell them at 25c, but were we forced to buy these under ordinary circumstances, you'd be obliged to pay 35c to 75c for them.

Here's the circumstances—one of America's biggest ribbon manufacturers had made up an order of 100 pieces for a western retailer, but for some reason or other the order was not confirmed, and the retailer refused to accept on account of it being a bad season for ribbons.

We were offered this entire 100 pieces at a price that looks out of all reason when you see the quality of the ribbons. We want to say that we believe it to be the most remarkable and opportune sale of ribbons that has been featured in many a year. Think of beautiful fancy warp prints, fancy satin taffetas and fancy moire effect ribbons, in 4 to 6-inch widths. Just what you want for Christmas fancy work. Indeed, it is a ribbon that is most in demand at the present time for Christmas evening—sachet and Opera Bags, Shawls, Coat Hangers, etc., and the same grades that have been selling right over our counter at 35c to 75c yard. We anticipate one of the biggest ribbon sales of the fall season. Remember, 100 pieces only—hardly two pieces alike—and every yard of it will be 25c. The beautiful color combinations will appeal to you the minute you see them. Alas!

U.S.C. ELEVEN IN LAST GAME.

Pomona to Try Strength With Methodists.

Fast Plays Expected to Feature Contest.

Last Conference Struggle in the City.

The football eleven of the University of Southern California and Pomona are to clash on Bovard Field this afternoon at 2:30 o'clock in the last conference game which will be played in the city this season. With both teams coached in the new style formations, a fast open contest; replete with the forward pass, fake plays and blocking ends should feature the card. Coach Cronwell has perfected the light university team in the use of some lightning formations, which

RUGBY LINE-UPS.

STANFORD RED IS FAVORITE.

Cardinal Rooters Back Team Heavily.

California Fifteen Is Strongest Yet.

Great Crowd to Witness Fierce Struggle.

[ASSOCIATED PRESS REPORT.] SAN FRANCISCO, November 12.—The annual intercollegiate football game between Stanford University and California today is expected to draw a great crowd to the stadium. Stanford is the favorite, but California is considered the strongest team yet.

development of the backfield his special forte. His task has not been made easy by the fact that he has had to teach the old men to forget much of what they already knew. The preliminary games have shown that remarkable results may be expected from the Blue and Gold backfield.

MINOR CONTESTS.

HIGH SCHOOLS IN MOLESKINS.

Two high school games are scheduled outside the city today. At Pasadena the Crown City eleven is to meet the strong Santa Ana team. The Pasadena High squad has shown great improvement in the last two weeks. Santa Ana High has had the advantage of meeting college eleven in practice games. A hard contest is expected.

Hollywood High to Play a Return Game with San Diego High on the Hollywood Field.

The local team expects to redeem its former defeat at the southern city. Capt. Taylor of Hollywood is in great shape for a hard game. San Diego is to return tonight after the game.

Bids to Be Thinned Out.

NEW YORK, Nov. 12.—The tentative bids for the Jeffries-Johnson prize fight, which are expected to be considerably thinned out by December 1, include two offers from San Francisco, one from Los Angeles, two from Idaho, one from Nevada, one from Oklahoma, one from Texas and one from Australia. As both Jeffries and Johnson have expressed a preference for California, and as it is doubtful if the fight can be held elsewhere in this country, it is considered more than probable that the big fight will go to California or to one of the states bordering on the Pacific coast.

Attell and Moran.

MEMPHIS, Nov. 12.—Alb Attell, featherweight champion, and Jimmy Moran, formerly of England, have been matched to fight eight rounds before

Champion University of Southern California Football Eleven.

which is to play its last game against the fast Pomona College team at Bovard Field this afternoon. The line-up is: Hogan, right end; Cochran, right tackle; Keller, right guard; Bunker, center; Kidder, left guard; Malcolm, left tackle; Hill, left end; Ickes, quarterback; Dedius, right half; Selph, fullback; Paulin, (capt.) left end.

ROBERTSON SETS NEW WORLD MARK IN FIFTY-MILE RACE.

[ASSOCIATED PRESS NIGHT REPORT.]

ATLANTA (Ga.) Nov. 12.—Today's automobile races reached their climax when George H. Robertson, driving a sixty-horse-power Fiat, broke the Indianapolis track record for fifty miles by 4m. 12.2s. He made the distance in 4m. 12.2s. The previous record was held by John N. Alken. Alken, who drove a National second in today's race, and Stillman, who came in third in a Marmon, both helped the Indianapolis mark. Alken made the distance in 4m. 11s. and Stillman in 4m. 30.56s. Eight cars started and five finished.

Lewis Strang, piloting his 200-horse-power Fiat, set a terrific pace in the first seven miles, but in the eighth he was passing the judge's stand the tire of his rear right wheel exploded. This compelled his withdrawal as it was impossible with the special design of the car to make a quick replacement of tires. His time for the first ten miles was 7m. 18.22s.

Strang traveled on an average of three seconds a mile faster than Robertson and on this basis it is figured that had he been able to finish the race he would have gone the fifty miles in four minutes less than the time made by Robertson.

Frank Harding, driver of the Apperson "Jackrabbit" had a hard time trying to keep out of the pocket made for him by the two Chalmers-Detroit drivers, Lorimer and Dingley. On the twenty-seventh mile, while Lorimer was at the left of him and slightly in advance and Dingley close behind on the right, Harding made an attempt to escape from the pocket. Lorimer blew a tire, running against the fence and losing a wheel. Harding was about six feet behind when he also blew a tire, but managed to avoid running into his rival.

A more serious accident occurred during the practice hour, when a specially designed, high-powered Fope-Toledo, valued at \$25,000, was wrecked. H. J. Kilpatrick driver, and R. G. Church, mechanic, were thrown 150 feet from their seats, but fell in a bed of underbrush and escaped with slight injuries. The car was a total loss.

The blowing up of Strang's tire gave Robertson the lead at the end of the twentieth mile. He was followed by Alken, Harding, Lorimer, Stillman, Dingley and Diabrow, the last named in a Buick.

After the accident to Harding and Lorimer, Stillman occupied the place until the finish. In his forty-second mile Alken was compelled to replace a tire. The change was made in a minute and a half and the star driver of the National team was able to resume without losing his position as second in the race. The weather that day was warm and inviting and the largest crowd of the meeting witnessed the events.

JIM FLYNN TO BOX KETCHEL.

MIDDLEWEIGHT PUG SIGNS FOR LOS ANGELES FIGHT.

Manager McCarey of Pacific Club Schedules Match for Latter Part of December for Ten Rounds—Silly Cappelle and Frankie Sullivan on for Webster-Attell Date.

According to the dope cooked yesterday the local fight bugs will have an opportunity soon to see Ketchel in action here before the Pacific Athletic Club, for Manager McCarey yesterday accepted the terms demanded by Ketchel for an engagement here the latter part of December. It is reported that he will get \$5000 for his "end."

The local bugs are anxious to see him in force to see him work on account of the fact that he is still the middleweight champion, may fight Langford and has met Jack Johnson, very much to the damage of his self-unsound name, of "assassinator."

Ketchel has been going the pace for some months and his knockout by Johnson probably has shown him that there are others.

Johnson knocked much of the spectacularity out of Ketchel, but the local bugs are anxious to see if he is still the same Ketchel of old and to give them the chance Manager McCarey has matched him with Jim Flynn, the local heavyweight, for ten rounds. Flynn is a rough, rugged fighter much after Ketchel's style and as the local man has said a number of times that he would rather fight Ketchel than Papke, he will soon have the opportunity. They will fight at catch weights. On account of this match Flynn's proposed bout with Joe Willis has been called off until some later date.

Oring to this change Willis may be put on with Jack Geyer for November 20, if Geyer is willing and he has expressed a desire for a return match as he was not satisfied with the result of their recent fight.

A good pair was signed yesterday by Manager McCarey in Frankie Sullivan and Billy Cappelle, who are scheduled for ten rounds as the semi-final for the Webster-Monte Attell battle on November 21. The boys are to weigh in at 2 o'clock in the afternoon and are to make 125 pounds, and it is probable that a side bet will be put up to make the go more interesting. To a man up a telephone pole, it seems that Cappelle is too strong and rugged for Sullivan, but the latter appears willing to take all the chances, so it is not the business of other persons.

Monte Attell is due to arrive here Monday from San Francisco and will go at once to Doyle's South Side resort to begin training for this fight with Webster. Harry Foley, his trainer and manager, will come with him and promise that his boy will be in prime shape for this meeting with Webster. The latter is to train at the East Side Club.

MINES AND MINING.

Tenopah's Good Record for the Week Despite Shut-down of Belmont.

TONOPAH (Nev.) Nov. 9.—Owing to the repairs necessary to the air compressor at the Belmont the workings were closed down last week. The foundations of the compressor will have to be rebuilt and the length of time that the mine will be closed will depend upon the length of time for the cement to set. This will also cause a suspension of operations for the Belmont shaft, but when the repairs are completed the work will be rushed along with increased vigor.

Supplies continue to come from the lower workings, which have furnished the principal news from the mine for some time. Last week there was reported a strike on the 1100-foot level which showed a horizontal width of thirty feet, all carrying milling values. This week there is now one body on the 1000-foot level to chronicle. The discovery was made east of the Mispah fault, and, as there is a big block of territory in that part of the company's holdings in the vicinity of the Belmont shaft, which has never been prospected, the outlook is very encouraging for the proposed plan of making the Belmont the main working shaft. The east drift of the Belmont level on the 1100-foot level has passed through the big body of ore lying on the hanging wall of the fault, and now shows the vein of the faulting eastward, the face exposing six feet of good milling ore the full width of the drift, but as the ore continues on both sides the full width of the vein has not yet been determined. For a distance of nearly thirty feet the ore body lying on the fault showed a horizontal width of thirty feet, all carrying milling values, and previous to encountering this ledge the vein averaged ten feet for forty feet. The face of the drift is in ground and prospected before, and the vein, located within good walls, is headed a little south of the Belmont shaft.

In the Tonopah it seems as though there were a new body of ore opening that gives indications of a prolonged period of activity. On the north cross-cut from the Red Pione shaft ore of a fair milling grade has been encountered after following four feet

"MILLER-MADE" Garments Fit Snug At The Neck

This snug neck fit is one of the chief characteristics of "Miller-Made" Coats.

It reflects the extreme care and attention we devote to the selection of "Miller-Made" material and the skill and finish in the making of "Miller-Made" Princeton clothes.

These features—high quality of materials and trimmings—the skill and finish by Expert Workmen are the best reasons why you are always sure of getting a perfect neck fit in "Miller-Made" clothes, no matter whether you are a tall man—a short man—a stout man or a slim man.

Try on a "Miller-Made" suit—note that look about it which takes it out of the "Ready Made" class. If your dealer hasn't "Miller-Made" clothes send us his name and we will arrange with him to show them to you.

The new Fall styles are made up in a great variety of stripes, grey mixtures and solid colors in all the popular patterns. Price range from \$10 to \$40.

MILLER WATT & CO. Makers of Fine Clothes for Men

Jackson Blvd. at Market Street Chicago, Illinois

BOARD ADJOURNS.

TO MEET IN JULY.

[ASSOCIATED PRESS NIGHT REPORT.] MEMPHIS, Nov. 12.—The National Board of Arbitration concluded its work late today and adjourned to meet in July in New York City. The meeting will be devoted entirely to the work of reclassifying the leagues.

At the closing session of the board today the draft of Player Rapp from Oklahoma City by Portland, Or., was allowed, the counter claim of Kansas City for Rapp being disallowed. The claim of Spokane against St. Paul relative to Player Loughlin was allowed.

The claim of Dallas, Tex., against St. Paul for transportation furnished players, was allowed.

The claim of Springfield against Milwaukee for \$500 was referred to President Shively for adjustment and collection.

Player H. C. Tracey was awarded to the California State League.

Big League Team Dates.

Manager Bancroft, who has charge of the All-National team now in this city, received a telegram last night from the National and Philadelphia teams were to play a three-week engagement in the big town, and that both would start on the return journey to the East on December 6. Bancroft will endeavor to arrange two games for this city, one for Pasadena and one for San Diego, during the week beginning December 5.

Pitchers for Today.

The batteries for the Los Angeles All-National game today at Chavez Park are to be Charley Hall and Myers for the visitors, and Thoren and Orendorf for the Angels.

BEST EVER.

LONDON AUTO SHOW IS OPEN.

OLYMPIA IS BLAZE OF GLORY OVER EIGHT ACRES.

Largest Motor Car Exhibit Ever Held in Europe Opens Doors in the World's Metropolis With Poor Men's Cars the Feature of the Display, Americans There.

[BY DIRECT WIRE TO THE TIMES.] LONDON, Nov. 12.—[Exclusive Dispatch.] The annual automobile exhibition opened at Olympia this morning with eight acres of floor space occupied by 600 automobiles, worth in the aggregate \$2,500,000. The show is the largest and most varied of its kind yet seen in Europe. Perhaps the most prominent feature of the great display is the number of so-called poor men's cars, ranging in price from \$200 to \$250.

Some of these are single-cylindered, some double, and some quadruple. Their soundness of finish is remarkable and this exposition is expected to do more than all that has gone before to popularize among the British the automobile which hitherto has been regarded as an inaccessible luxury.

Cheap cars were first brought to a high degree of perfection in America and European manufacturers saw that unless they followed suit the American would take the cheap car market away from them. Four European automobile makers are exhibiting at Olympia, and their cars are much admired. Among the exhibitors are seventy British firms, twenty-two French, four Swiss, three German, two Belgian, three Italian and one Austrian.

The chief wonder of the show is a motor caravans costing \$10,000, and containing a kitchen, a drawing room, and sleeping accommodations for six persons. It is designed for the vagabond vacation in the country already popularized by horse-drawn vans.

The petrol engines are much the same in principle in all the cars, whether of low or high price, but the equipment of the rich men's cars is wonderful, costing from \$5000 upward. It includes easy springs, swinging chairs, shaded electric lights, soft carpets, mirrors and mahogany paneling, all of which produces an amazingly rich effect.

SOCIETY EVENT.

PARIS HAS HOPES.

[ASSOCIATED PRESS NIGHT REPORT.] NEW YORK, Nov. 12.—Norman Selby, better known as Kid McCoy, the former pugilist, arrived in New York tonight on the Lusitania, carrying a bid from a Paris syndicate for the Jeffries-Johnson fight.

"I hope to persuade the champions to fight in the Cercle de Paris next week—during the week of the Grand Prix," said Selby. "I am authorized to offer \$250,000 (\$50,000) and other incentives. The Cercle de Paris will offer more. If the fight goes there the event will be a third of the spectators will be present."

Week-end Bargain PIANOS

Los Angeles is full of music-loving people. It is one of the best piano cities in the world. But unfortunately the best musicians are usually the ones who can least afford a fine piano.

MCCALL PATTERNS

224-228 SO. HILL ST.

This is the last day of the informal silk exhibit, held on the Fourth Floor of this establishment, in connection with our Dressmaking Parlors. Mme. Cooper will gladly estimate the expense of making up any pattern you may admire. The exhibit consists principally of single patterns of silks whose sale, in these designs, we control in Los Angeles. Many of the silks are imported; some are representative of the finest American producers; all are highly interesting and remarkably handsome.

Smart Materials for Tailored Garments

Women who like extreme and exclusive novelties in the way of fall woollens for tailored suits and wraps, will want to pay an early visit to our Woolen Goods Section.

We pride ourselves upon carrying in stock high-grade, truly exclusive imported wool goods which are seldom displayed outside the custom tailoring shops. And we also pride ourselves upon our ability to make these materials up into handsome suits, with all the grace and finish that any tailor can give, at much less than you would expect to pay for equally good work.

NUB ZIBELINES—Novelties just out of their wrappings; gray blues, black and white, blue and white, gray and white, and navy and white; 50 inches wide.....\$2.00

DOUBLE-FACED DIAGONALS—Plaid back and diagonal face, in homespun or camel's hair; 54 inches wide.....\$2.50 and \$3.00

CAMEL'S HAIR CHEVRONS—in pastel effects, extremely wide wale; gray, green, rose, apricot, slate, blue, pearl gray—duotone patterns; 52 inches wide.....\$2.50

Get our prices upon the making of these and other goods.

We carry VIYELLA—the famous English flannels—in a complete line of colorings; seventy-five cents a yard. They're unshrinkable.

Really New Tailored Waists

In a Broadway window today appear eighteen distinct styles of linen and madras tailored waists—typical of a score of others that we carry constantly in stock. Tailored styles being favorites, we are prepared to fit anybody; and in lingerie styles, we are scarcely less well supplied.

There are plain linen waists with patch pockets and Gibson shoulder—this adds width where many women like it; tucked waists front and back; embroidered styles, with groups of narrow tucks at shoulder, yoke depth, or parallel groups to waist line; see-saw styles—these decidedly new, at prices from \$2.50 to \$6 each.

New Beau Brummel waists in coarse light blue, rose or white linen, promise much popularity for winter; examples of these may be seen in the window, also; five dollars.

On Monday, a sale of women's suits at two very popular prices, also a line of capes at reductions. Look for details Monday.

Girls' Sailor Suits \$5.00

Five dollars is a very modest price for sailor suits of such character and grace as are these; and no garment is prettier for young girls.

Every dress carefully made, from fine serge, in navy or Biege blue, trimmed with red or white braid; sizes to fit girls of 6 to 14 years.....\$5.00

Warm Underwear for Chilly Days

Cooler weather brings everybody with a rush to this Knitwear Section. Months ago we planned for stocks that should be larger and more representative than any we'd ever carried, so we are ready for any demand you may make.

All the best mills of the country supply us regularly with light, medium and heavy weight undergarments of all good textures—separate shirts and drawers, and union suits in different styles and lengths. And in underwear for boys and girls and tiny children we've any sort you can think to ask for.

in this department. As some of these
letters have contained apologetic
statements from the writers for what
they thought might be an intrusion, it
may be well to remark right here that
I am always glad to hear from my
readers in this personal way, and any
information which will be of assist-
ance to them will be cheerfully given
when the inquiries accompany their
queries with a stamped and self-ad-
dressed envelope. The names of firms
carrying articles referred to in this
department will always be given to
such inquiries, so ladies, let us hear
from you. Ask for what you want.

Things New and Novel.

The wattleau plant is conspicuous for
its absence, though early in the fall
it was expected that it would have a
place as a line for the winter ball
gown.

There are many novelties in veils;

FOR TURKEY DINNER.

Big Thanksgiving Banquet is Planned
Next Thursday by Merchants' and
Manufacturers' Association

About 400 members of the Merchants'
and Manufacturers' Association will
sit down to a turkey dinner at Levy's
next Thursday night. The banquet
was fixed for one week in advance of
the national holiday, in order that it
might not interfere with the plans of
members, most of whom will eat their
turkey at home on the day of good
cheer.

Fred W. Detmers is toastmaster, and
there will be short, pithy speeches by
orators selected for the occasion.

Unlike many banquets, the affair will
be through by 11 o'clock. It will begin
promptly at a 7 o'clock, and business
men can go directly to the restaurant
from their stores and shops. It will be
an informal function, with full dress
served, except in the case the guest
has no other suit.

Rev. Baker P. Lee, rector of Christ
Episcopal Church, will be one of the
leading speakers, and his address will
be asked to give their reasons for
being thankful at this time. It is be-
lieved that a full tide of prosperity
which is flowing over this section will
inspire them to voice in a few words
their thankfulness for good business
and future prospects.

Hastings' Orchestra will play selec-
tions, and Dr. Cook's own narrative
of his discovery of the pole will be
rendered on a large phonograph.

The price of tickets has been fixed
at \$1.50 each. The association will sup-
ply extras in the shape of cigars, cig-
arettes, "bonbons" and little play fa-
vors. Applications for tickets should be
made at once to Secretary Zeehandelaar.
The Dinner Committee is: Fred
W. Detmers, chairman; E. A. Gieseler,
A. B. Mullen, L. R. Nordlinger, Irwin
H. Rice and F. J. Zeehandelaar.

NEW HOSPITAL ASSURED.

Site at Corner of Orange and Wilmer
Streets Purchased—Plans Embarked
New Ideas.

The erection by the General Osteo-
pathic Hospital Association of the
handsome building, a perspective of
which was recently published exclu-
sively in The Times, is assured through
the purchase yesterday by the associa-
tion of a large site at the northeast
corner of Orange and Wilmer streets.
The lot has a frontage of 80 feet by a
depth of 280 feet, and the consideration
was \$4,500. The seller was O. T. John-
son. The deal was negotiated through
R. A. Rowan & Co. and the Way-
bright-Buller Company.

Plans for a four-story building em-
bodying the latest ideas in hospital
construction were prepared some time
ago by Norman F. Marsh. The archi-
tecture will depart as far as possible
from the old-fashioned ideas.
Features planned are sun parlors and
a large palm garden for the roof. The
building will contain eighty private
rooms and two wards, accommodating
ninety patients each. The structure
will cost about \$100,000.

The directors of the association,
which has made the project possible
are Dr. C. P. Brum, president; Dr.
Dain L. Tasker, Dr. R. D. Emery, Dr.
C. J. Tracy, C. C. Chapman and Frank
E. Tyrrell. The stockholders are
largely physicians, practically all
schools of healing being represented.

AT THE CITY PLAYGROUNDS.

The programmes for the weekly en-
tertainments at the city playgrounds
of the various playgrounds tonight have been
arranged as follows:
Violin—City Playground—Lecture by
Mr. R. L. Ricketts of the Polytechnic High
School, on "Personal Experiences in
Arctic Explorations."
Echo—City Playground—Lecture by
Prof. Twining of Polytechnic, on "Electricity and
Wireless Telegraphy."
Recreation Center—Stereo-phon lecture
by John M. Brewer of Polytechnic,
on "Boys' Summer Self-Government
Camp."

This afternoon at 5 o'clock, the Mu-
nicipal Band will give its first outdoor
concert at Echo Park.

That Alaska is a fertile field for
farmers is indicated by an exhibit of
its farm products now being con-
ducted in New York. Agriculturists in
Eastern States have been attracted in
large numbers to the display, which
surpasses the farm exhibits of an or-
dinary county fair, and as a result
hundreds of home seekers have ar-
ranged to start farms in Alaska, par-
ticularly in the Tanana Valley region.

If you enjoy good short stories, read The
Times Magazine of the coming Sunday.

The Demonstration of
"Ivy Corsets" is

acquainting more women with the points that
make Ivy Corsets so much different from other
sets.

—Ivy Corsets express the ideal
of a woman who has made
Corsets and the designing of
Corsets her life work.

—The models, the
grace of each model,
its individuality and
sensibility as to health
and comfort require-
ments, closely connect-
ed and developed with superb
style value—are among the
features that make Ivy Corset
wearers as enthusiastic over
them as is

Florence Stone—who expresses

in the following letter the thoughts of hundreds of women:
"I am a great admirer of the Ivy Corset, and am
happy to know it is obtainable here, otherwise I
should send for it to the end of the world. It is
the most comfortable, well made and perfect fitting
corset I have ever worn. I shall be very glad
indeed to recommend it to anyone, and sincerely
wish you the success it deserves."
Yours very truly,
Florence Stone, Fresno

—Do you know Ivy Corsets?
—Then—Now is the time to learn them—
—Miss Schumacher is here, representative of their makers, to
demonstrate and tell the value of Ivy Corsets to every woman—
now—
—There is a model here for you.
—Expert fitters—Private fitting rooms—2nd floor.

Lively Presentation of the Day's Interesting Happenings in Los Angeles County

NEWS REPORTS FROM CORRESPONDENTS OF THE TIMES.

PASADENA. SNOBBISH HIS DESCRIPTION.

Scherer Denounces College
"Prat" Societies.

President of Throop Styles
Them Un-American.

Council Willing to Change
Canine Ordinance.

Office of The Times, No. 29 E. Raymond Ave.
PASADENA, Nov. 12.—At the chapel exercises of Throop Polytechnic Institute yesterday morning, President Scherer made an announcement regarding fraternities and athletics, according to the bylaws all organizations, social, literary and athletic, must be approved by the president.

"I suppose the question as to the future policy of the institute naturally arises in some minds, owing to the change of administration, and our enlarged plans," said President Scherer. "I am quite willing to set forth my own attitude, not merely toward high school fraternities, but also as to similar organizations in our college. As I see things, I do not intend ever to give authority for the formation of a secret society among the students. This is a position reached after an experience of a good many years with fraternity life and influence in American colleges. I can see that there is something inherently snobbish and, therefore, un-American in fraternity organizations as ordinarily administered."

Dr. Scherer is an ardent supporter of athletics in so far as they do not interfere with other college duties. He believes the college spirit, which is developed by the student body in its support of the basketball, football or other athletic attainments, is wholesome. He said: "We wish in every way to encourage the athletic activities of the school, and we do not intend to interfere with our fundamental aims and purposes."

Dr. Scherer admonished the students against going to the city and interfering with other college duties. He said: "We wish in every way to encourage the athletic activities of the school, and we do not intend to interfere with our fundamental aims and purposes."

TO ENTERTAIN OFFICERS.
The Board of Trade and citizens will entertain the officers of the German warship Arcona next Tuesday. The guests will be given trolley and automobile rides about the city, and also taken to Mt. Lowe. Afterward they will be dined at Hotel Maryland for luncheon.

Austin B. Fletcher, secretary of the Massachusetts Highway Commission, was the guest yesterday of City Engineer Van Ornum. He inspected the roads, and many of the new roads of the county surrounding Pasadena. Mr. Fletcher has heard much regarding the success attained in Southern California with crushed rock roads when properly used. It was for the purpose of making special inquiry regarding this that he visited Pasadena. He has been traveling through various sections of the United States and told Van Ornum that the roads in Pasadena and the surrounding districts are superior to any he has seen.

DAUGHTERS ADJOURN.
After the election of officers and the final consecration services, the second annual convention of Southern California branch of the International Order of King's Daughters, adjourned yesterday afternoon.

Officers are: Mrs. Morton F. Mason, Pasadena, State secretary of Southern California; Mrs. P. B. Swartz, treasurer; Mrs. Marie Crow, recording secretary; Mrs. Charles E. Lightner, San Bernardino; and Mrs. H. H. Hottel, Pasadena, who were chosen as members of the executive board.

COMPLAINTS BY HUNDREDS.
Mayor Earle, members of the Council, Chief Wood and Humane Officer Smith have been much bothered during the past twenty-four hours by inquiries and protestations regarding the new ordinance requiring all dogs to be kept in the city to be kept at home and tied up. Complaints by the hundreds have come from people of a nervous temperament who state that the dogs of their neighborhoods, which have never been tied up before, take exception to the new ordinance and howl during the entire night, and most of the day. So strong are the protests from many influential citizens that the Council is anxious to do almost anything to get out of the tangle, and is willing to repeal the law. When the matter of tied dogs was first brought up a suggestion was made to muzzle all canines, but the members of the Council referred to the case which was fought out in Los Angeles during the summer and quashed the idea. Now, however, they are willing to allow dogs to run at will providing each has a muzzle on.

Surgons, veterinarians and dog doctors nearly all disagree in their diagnosis of the disease which affects many of the dog population of Pasadena. Dr. Brocher of the Humane Society will cling to the theory that it is rabies. Others state it is lockjaw. Along came Dr. DeBiron of Monrovia yesterday and stated positively that the disease is due to "toothache poison."

Some physicians state that it is a nervous trouble brought on by fear.

OPENS FOR WINTER.
La Pintaessa yesterday opened its doors for the season. It is one of the oldest hotels of Southern California and has a large clientele among the annual visitors to Pasadena. It is beautifully located in the north part of the city overlooking the entire city and surrounding valley.

The hotel will be in charge of F. G. Newland, the owner, Theodore Gillingham, for many years a Pasadena man, of the Green, will practically have the entire charge of the house. The hotel has been thoroughly overhauled. It was not the intention to open until December 1, but many of the old guests came in earlier than usual. Like the other big winter hotels, La Pintaessa expects to do a large business this season. The management has made many bookings and states the prospects are excellent.

CATTLE KING BUTS.
William M. Baird and family of Gillett, Wyo., will arrive today. Baird was in Pasadena last spring attending the live stock show and became so enthusiastic that he bought the Pintaessa ranch near Duarte, through the Williams Stock Company. Baird is one of the cattle kings of Wyoming. He paid \$100,000 for his Duarte ranch

HUNGRY NO MORE. DROPS DEAD IN A CAFETERIA.

SUMMONS CAME SUDDENLY TO A
DENVER CAPITALIST.

While About to Dine at Long Beach
He Succumbed to Attack of Heart
Failure—High School Faculty
Investigating Outrage by Students
Who Object to Take Examinations.

LONG BEACH, Nov. 12.—While about to dine, E. M. Ashley, 65 years old, a retired capitalist of Denver, who came here a month ago, dropped dead tonight at the cafeteria in the Del Mar Hotel. He leaves a son, who is in Denver at present, and a widow.

When family Mudge went to the High School this morning, he found every keyhole in the building plugged with plaster of Paris. Cleaning out one of them with a piece of wire the janitor entered the assembly-room to discover that all the books of the students, probably 1000 volumes, had been taken from the desks and strewn upon the floor. The work is supposed to be that of boys who were angry at being ordered to take the quarterly examinations, and hoped to prevent their being held. The faculty is investigating the outrage.

On the road to Signal Hill this morning, William Mudge went to the High School, about 3 years old, poking with a stick at an ugly and enraged tarantula. Baxter took the little one out of his pocket and placed it on the ground. The tarantula, which was on exhibition in a local business house today, the tarantula is six inches across and an ugly looking monster.

GOING TO PITTSBURGH.
A report reached here today that Rev. Josiah Sibley, pastor of the First Presbyterian Church, who is now visiting in the South, has accepted the pastorate of the First church at Pittsburgh, at a salary of \$7000 a year. It has been known for some time that Mr. Sibley would return to Long Beach on account of his wife's health.

The deal between the Pacific Electric and Oxford companies for the transfer of the block on the beach east of the pier was closed today. The delay was due to legal proceedings in closing and vacating an alley in the block.

The Council this morning fixed next Monday at 10 o'clock for the joint session with the Belmont Trustees, when the vote in the new election will be taken. The election will be canvassed and the result forwarded to the Secretary of State, with an abstract of all the steps taken in the election of 1920.

HEARD SWINE FOR LIFE.
S. C. Martin and son and Walter Harris, three visitors from Kansas, had a long hard swim for life yesterday evening. They rented a boat for a ride through the inner harbor and started out through the channel. They safely reached the shore, but the small boat was capsized and the three were nearly drowned.

The Council this morning ordered the payment of \$100,000 to the Dock and Terminal Company as part payment on the \$100,000 of water front. It delegated the City Attorney, Auditor and Treasurer to close up the deal.

The annual Y.M.C.A. circus was given tonight at the auditorium before a large audience. The circus was given by the Los Angeles Y.M.C.A. and was a great success. The circus will be repeated tomorrow night.

In order to carry for the new annexed territory both for public and private consumption of electricity, the Edison company announces that it will be necessary to erect a substation close to Belmont Heights.

Times Cook Book No. 5, latest edition. Largest, most elaborate and complete cook book ever published. Issued by The Times. The 218 recipes for hot Spanish and Mexican dishes and the hygienic department are big features. The book is sold by mail, 5 cents additional. Address The Times, Los Angeles.

SOUTH PASADENA.
SOUTH PASADENA, Nov. 12.—The newly-organized Chamber of Commerce has elected these officers: President, E. H. Rust; first vice-president, W. A. Gillette; second vice-president, R. D. List; third vice-president, W. E. Newell; treasurer, Fred W. Bank of this city; secretary, William F. Axtman.

Out of 763 postal cards sent out to get opinion on the purchase of an extra school site by the board of education, only 233 were returned to City Clerk Cox, indicating that the majority of the residents are satisfied with what the board has done.

190 were favorable and forty-seven unfavorable, nine were thrown out on account of error, and forty-three letters were returned for lack of address. As ninety voters had signed the original petition asking that the second site be abandoned, this would indicate that the board had reconsidered the matter in favor of the site.

The Junior Auxiliary of St. James' Episcopal Church, will hold a cake and candy sale in the parish house, Monterey Road and Fremont avenue tomorrow afternoon, the proceeds to be used for the Christmas box for the Indians.

City taxes became due last Monday, and will become delinquent the first Monday in January.

HOLLYWOOD.
HOLLYWOOD, Nov. 12.—Dr. J. W. Coyner has sold his large twelve-room residence on Wilcox avenue to W. H. Allen, Jr., president of the Title Insurance and Trust Company of Los Angeles.

C. W. Walker has sold his Hollywood property, comprising a home and lemon grove of five acres and a building, and two smaller houses and other city lots on Hudson avenue to George Meritt of Los Angeles. Reported consideration, \$75,000.

EL MONTE.
EL MONTE, Nov. 12.—The women of the Shakespeare Club will hold a bazaar and chicken-pick supper on Saturday afternoon and evening of December 10 in Cave's Hall. The proceeds will go to the clubhouse.

G. D. Barron "W" have charge of the Rancho del Rio, near the San Gabriel River. He will move his family there as soon as a house can be built. The ranch is owned by a Los Angeles syndicate and will be planted to walnut trees and alfalfa.

THREE-POUND BABY KEPT ALIVE IN AN INCUBATOR.

LONG BEACH, Nov. 12.—Physicians and nurses are watching with much interest the effort to save the tiny babe of Mr. and Mrs. E. T. Blount of this city, in the provided incubator at the Seaside Hospital. The little one is being carefully watched and nourished.

The infant is five weeks old today, and has never been dressed, but is kept rolled in cotton and handled carefully. The make-up of the incubator is largely composed of hot water bags. At birth the tot weighed three pounds, four ounces. It showed a gain the past week. It has been in the balance since birth. Blount is in poor health, and in order to give the infant mother's milk, another woman who has a child a few months old is supplying the incubator baby.

At the hospital today it was said that the babe shows much improvement, as does also the mother.

WIDOW'S CASE. (Continued From First Page.)

Whether Talbert represented Axtell's sister, who lives in Southern California, or was acting upon the last wishes of the man, is not known. At any rate, he defeated Mrs. Axtell in the first step of what promises to be a lively trial for the estate.

Yesterday Talbert again showed his hand by appearing in court and asking for special letters of administration. He made this petition on the strength of a will signed by Axtell, June 16 last, and left in the custody of Attorney Payne, his law partner. In this will Talbert was named sole executor of the estate, and for that reason asks special letters with authority to take charge of the collection of the estate, the chief of which comes from the Hotel Seaside.

It is understood Mrs. Deulah V. Axtell will oppose this petition. There are sisters, brothers, nephews and nieces to be considered in the fight for the estate.

Axtell's married life was not happy. He was afflicted with chronic stomach trouble, which finally caused his death, and which was believed by many of his friends to have caused an irritable disposition.

REMARKABLE AGREEMENT.
The agreement of separation between husband and wife was entered into on May 14, and was one of the most remarkable documents ever filed in a local court. It was absolutely bloodless, and provided that both parties go their several ways, conduct themselves in any manner they saw fit, and lead such lives as they desired. In fact, the agreement covered every point, but an actual divorce, which Axtell did not seem desirous of obtaining or granting.

The document agreed to every clause, and the document was signed by both parties at the last moment and asked that the agreement be annulled on the ground that she had been unduly influenced in signing the agreement, and that Axtell had neglected to keep certain oral promises.

The document shows that Mrs. Axtell stipulated that her husband might live where and with whom he desired, that she would not interest herself in his business, contract any debts in his name, nor bring any suit for alimony. Axtell agreed to pay her the same complement relative to permitting her to reside where and with whom she desired. He further agreed to pay her \$50 a month as long as she kept the contract, and furnish her with a \$5000 home to live in.

Axtell had carefully invested his money during his life, and the rentals from his property amount to more than \$4000 a year. His estate, which will be the subject of contention for some months, includes the Hotel Seaside, No. 722-24 South Flower street, value \$25,000; No. 1821 Santa Cruz street, value \$2000; percent property, \$2000; No. 128, 129, 130, 131, 132, 133, 134, 135, 136, 137, 138, 139, 140, 141, 142, 143, 144, 145, 146, 147, 148, 149, 150, 151, 152, 153, 154, 155, 156, 157, 158, 159, 160, 161, 162, 163, 164, 165, 166, 167, 168, 169, 170, 171, 172, 173, 174, 175, 176, 177, 178, 179, 180, 181, 182, 183, 184, 185, 186, 187, 188, 189, 190, 191, 192, 193, 194, 195, 196, 197, 198, 199, 200, 201, 202, 203, 204, 205, 206, 207, 208, 209, 210, 211, 212, 213, 214, 215, 216, 217, 218, 219, 220, 221, 222, 223, 224, 225, 226, 227, 228, 229, 230, 231, 232, 233, 234, 235, 236, 237, 238, 239, 240, 241, 242, 243, 244, 245, 246, 247, 248, 249, 250, 251, 252, 253, 254, 255, 256, 257, 258, 259, 260, 261, 262, 263, 264, 265, 266, 267, 268, 269, 270, 271, 272, 273, 274, 275, 276, 277, 278, 279, 280, 281, 282, 283, 284, 285, 286, 287, 288, 289, 290, 291, 292, 293, 294, 295, 296, 297, 298, 299, 300, 301, 302, 303, 304, 305, 306, 307, 308, 309, 310, 311, 312, 313, 314, 315, 316, 317, 318, 319, 320, 321, 322, 323, 324, 325, 326, 327, 328, 329, 330, 331, 332, 333, 334, 335, 336, 337, 338, 339, 340, 341, 342, 343, 344, 345, 346, 347, 348, 349, 350, 351, 352, 353, 354, 355, 356, 357, 358, 359, 360, 361, 362, 363, 364, 365, 366, 367, 368, 369, 370, 371, 372, 373, 374, 375, 376, 377, 378, 379, 380, 381, 382, 383, 384, 385, 386, 387, 388, 389, 390, 391, 392, 393, 394, 395, 396, 397, 398, 399, 400, 401, 402, 403, 404, 405, 406, 407, 408, 409, 410, 411, 412, 413, 414, 415, 416, 417, 418, 419, 420, 421, 422, 423, 424, 425, 426, 427, 428, 429, 430, 431, 432, 433, 434, 435, 436, 437, 438, 439, 440, 441, 442, 443, 444, 445, 446, 447, 448, 449, 450, 451, 452, 453, 454, 455, 456, 457, 458, 459, 460, 461, 462, 463, 464, 465, 466, 467, 468, 469, 470, 471, 472, 473, 474, 475, 476, 477, 478, 479, 480, 481, 482, 483, 484, 485, 486, 487, 488, 489, 490, 491, 492, 493, 494, 495, 496, 497, 498, 499, 500, 501, 502, 503, 504, 505, 506, 507, 508, 509, 510, 511, 512, 513, 514, 515, 516, 517, 518, 519, 520, 521, 522, 523, 524, 525, 526, 527, 528, 529, 530, 531, 532, 533, 534, 535, 536, 537, 538, 539, 540, 541, 542, 543, 544, 545, 546, 547, 548, 549, 550, 551, 552, 553, 554, 555, 556, 557, 558, 559, 560, 561, 562, 563, 564, 565, 566, 567, 568, 569, 570, 571, 572, 573, 574, 575, 576, 577, 578, 579, 580, 581, 582, 583, 584, 585, 586, 587, 588, 589, 590, 591, 592, 593, 594, 595, 596, 597, 598, 599, 600, 601, 602, 603, 604, 605, 606, 607, 608, 609, 610, 611, 612, 613, 614, 615, 616, 617, 618, 619, 620, 621, 622, 623, 624, 625, 626, 627, 628, 629, 630, 631, 632, 633, 634, 635, 636, 637, 638, 639, 640, 641, 642, 643, 644, 645, 646, 647, 648, 649, 650, 651, 652, 653, 654, 655, 656, 657, 658, 659, 660, 661, 662, 663, 664, 665, 666, 667, 668, 669, 670, 671, 672, 673, 674, 675, 676, 677, 678, 679, 680, 681, 682, 683, 684, 685, 686, 687, 688, 689, 690, 691, 692, 693, 694, 695, 696, 697, 698, 699, 700, 701, 702, 703, 704, 705, 706, 707, 708, 709, 710, 711, 712, 713, 714, 715, 716, 717, 718, 719, 720, 721, 722, 723, 724, 725, 726, 727, 728, 729, 730, 731, 732, 733, 734, 735, 736, 737, 738, 739, 740, 741, 742, 743, 744, 745, 746, 747, 748, 749, 750, 751, 752, 753, 754, 755, 756, 757, 758, 759, 760, 761, 762, 763, 764, 765, 766, 767, 768, 769, 770, 771, 772, 773, 774, 775, 776, 777, 778, 779, 780, 781, 782, 783, 784, 785, 786, 787, 788, 789, 790, 791, 792, 793, 794, 795, 796, 797, 798, 799, 800, 801, 802, 803, 804, 805, 806, 807, 808, 809, 810, 811, 812, 813, 814, 815, 816, 817, 818, 819, 820, 821, 822, 823, 824, 825, 826, 827, 828, 829, 830, 831, 832, 833, 834, 835, 836, 837, 838, 839, 840, 841, 842, 843, 844, 845, 846, 847, 848, 849, 850, 851, 852, 853, 854, 855, 856, 857, 858, 859, 860, 861, 862, 863, 864, 865, 866, 867, 868, 869, 870, 871, 872, 873, 874, 875, 876, 877, 878, 879, 880, 881, 882, 883, 884, 885, 886, 887, 888, 889, 890, 891, 892, 893, 894, 895, 896, 897, 898, 899, 900, 901, 902, 903, 904, 905, 906, 907, 908, 909, 910, 911, 912, 913, 914, 915, 916, 917, 918, 919, 920, 921, 922, 923, 924, 925, 926, 927, 928, 929, 930, 931, 932, 933, 934, 935, 936, 937, 938, 939, 940, 941, 942, 943, 944, 945, 946, 947, 948, 949, 950, 951, 952, 953, 954, 955, 956, 957, 958, 959, 960, 961, 962, 963, 964, 965, 966, 967, 968, 969, 970, 971, 972, 973, 974, 975, 976, 977, 978, 979, 980, 981, 982, 983, 984, 985, 986, 987, 988, 989, 990, 991, 992, 993, 994, 995, 996, 997, 998, 999, 1000.

What do you know about RIVERSIDE?

The most famous of oranges, the
propagated there, and it is today one of the
best orange growing districts in California.

will be interested in the way the oranges are
packed and made ready for shipment to the
market.

There is also the famous drive
Mountain with its inspiring outlook
with palm and pepper trees; interspersed
Magnolia.

The Glenwood Hotel, California's
unique the world over.

A stop of two hours is made at
the Kite Shaped Track Trip which affords
drive and a visit to the Mission.

Return trip from Riverside on Kite
Trip is thru Santa Ana Canyon and
to Los Angeles thru the English

San Joaquin Valley.

AFTER THE NICKELS.

DOUBLE TRACKS FOR FRESNO CARS.

IMPORTANT STREET RAILWAY IMPROVEMENTS PLANNED.

Butterfly Pest of Truck Gardens
Chingese Diet from Vegetables to
Oranges, Alarming Growers—New
Way to Settle Criminal Assault
Charge Found by Stenographer.

SPECIAL CORRESPONDENCE OF THE TIMES.
FRESNO, Nov. 11.—The great sums which the Huntington interests are spending in Fresno, city and county, it is announced, are to be increased soon by expenditure for material improvements in the transit facilities of this city. Fresno has already an excellent electric car system, and the proposed improvements will put the lines on a metropolitan basis.

The principal feature of the improvement will be the double-tracking of all lines in the city. Last spring two street lines were double-tracked, and it was planned to continue the work, but materials were lacking. Now, the lines that run to the north, northeast, east, southeast and west will be double-tracked with consequent increase in traffic capacity.

A new line is to be built in addition to the existing line, from the center of town to the south, running in the city limits and connecting with the Polak branch of the Southern Pacific. This will furnish transportation to an entirely new suburban section and cause a growth of the town in the direction in which many workmen's cottages are now being constructed.

A further improvement in the transit conditions will be a change in loops in the center of town, which will permit the handling of cars faster and decrease the intervals between the suburban runs.

NEW ORANGE PEST.
Orange growers of Tulare county say that the larva of the swallowtail butterfly pest, scientifically known as papilio polydorus, has violated the traditions of generations of its ancestors by deserting the forage of truck gardens for the leaves of the orange tree and other citrus fruits.

This is the first recorded instance of the perversion of appetite. Never before has it been known to attack the orange leaves.

Just why the little green worm became dissatisfied with the old bill of fare cannot, as yet, be determined. Probably it, like the caterpillar, has a craving for the orange leaves through accident. At any rate, it seems certain that this change of boarding-house is a protest to the truck gardeners.

The activity with which these rebellious worms have gone to work upon their new delicacy threatens catastrophe for the orange growers should the perversion of appetite become general.

Commissioner of Horticulture A. G. Smith of Visalia was the first to discover the new pest and identify it as the papilio polydorus.

Local entomologists are watching the new characteristic with deep interest. They do not, however, expect any great difficulty in eradicating the pest, if it should become widespread, for the life history of the insect and its offspring are well known.

PICKLE WOMAN.
Dist. Atty. Church says he is convinced of the guilt of woman. The District Attorney's frame of mind and the release of one David Bartholomew, charged with criminal assault, are slowly related.

Miss Della Murphy, a stenographer, was the plaintiff in the assault case. At the preliminary examination some weeks ago she charged that, while walking one evening with a young man in a suburban park, they were accosted by Bartholomew, who displayed a deputy sheriff's shield and threatened to arrest them for being together in the park at that time of night. According to Miss Murphy's testimony, Bartholomew, after frisking her companion away, assaulted her.

A few days before the date set for the opening of the case, the District Attorney called at the office where she was working. At the time, the plaintiff, and Bartholomew, the defendant, engaged in pleasant conversation. Bartholomew had been released on bail for \$10,000.

Next day, it is said, Bartholomew's lawyer showed Dist. Atty. Church an affidavit from the sickle Miss Murphy, in which she denied everything she had previously stated concerning the assault.

Church moved that the case be dismissed, and that it was that he became a possibility.

REMARKABLE WELL.
Development Company Secures Large Flow in the Higher Bench Lands at Delano.

SPECIAL CORRESPONDENCE OF THE TIMES.
DELANO, Nov. 11.—Forty-three thousand two hundred gallons of water an hour is the present flow from a newly completed Delano well, which has been pumping steadily for fifty-two hours. The well, which is situated on the S. P. R. Morse Development Company's tract, started pumping about 21,000 gallons an hour. It has increased in volume every hour and is still increasing. The S. P. R. Morse Development Company has evolved a new system of development which has proven successful in developing three wells within the last sixty days.

Successful wells are numerous in the Delano region, but the securing of such a large flow on the higher bench lands is cause for much rejoicing there. The Delano bench has for years been known as one of the most fertile and one of the earliest regions in California. The lack of water on the bench lands has retarded their rapid development, but now that water in such quantities has been proven available, the district expects to bring one of the most important agricultural regions in the state.

WASHOUT DELAYS 'EM.
Senate Committee on Irrigation Has Trouble on the Way to Bakersfield.

BAKERSFIELD, Nov. 12.—The United States Senate Committee on Irrigation was delayed four hours on its way to Bakersfield this morning by reason of a washout.

The party was met by H. A. Jastro, W. S. Tevis and Capt. Mackintosh and the members of the committee were shown the irrigation system of the county, visiting the intakes of some of the canals.

Later they were the guests at luncheon of Mr. and Mrs. W. S. Tevis at their Bakersfield home.

A public reception was held during the afternoon.

WHEELS OF PROGRESS.

NEW CAR SHOP FOR SANTA FE.

RAILROAD COMPLETING BIG JOB AT BAKERSFIELD YARD.

Terminal Facilities in San Joaquin Valley City to Equal Best Between San Bernardino and San Francisco. Mennonites Lay Out New Townsite in Quick Time.

SPECIAL CORRESPONDENCE OF THE TIMES.
BAKERSFIELD, Nov. 11.—Notice was received here today by Contractor James Arp that he had been awarded the contract to build a car shop, 80 by 100 feet in size, for the Santa Fe Railroad, just east of the new repair shed, in the local yards. Arp's contract requires the building to be completed by December 31.

The building of the new car shop is a part of a steady programme of improvement, which the Santa Fe is carrying out here. This programme began with the purchase of additional land, that gives it a yard of generous width and over three-quarters of a mile in length, and the building of a reinforced concrete roundhouse, which is one of the best constructed and equipped, as well as one of the largest, on the system.

The work of improving the yard has gone steadily on and other shops, buildings and improvements are planned, that will make this the best equipped plant, it is promised, between San Bernardino and the bay.

COLONIZATION ENTERPRISE.
The most active colonization enterprise in this end of the San Joaquin Valley at present is the Mennonite colony, at Martindale, on the Southern Pacific Railroad, about twelve miles northwest of Bakersfield. In the last three months, fifty families have been located at the colony, and a village with three stores, a lumber yard and about a dozen residences has sprung up. New farm houses are beginning to dot the plain to the south and east of the town, and it is the expectation of the colonists that before the first of the year an entire township will be sold and occupied.

A well, which supplies water for municipal purposes and irrigating the townsite, has been completed. A six-foot shaft was dug to water, which stands at eighty feet, and a twelve-inch casing was sunk through water sands, 50 feet deep. A centrifugal pump and fifty-horse-power gasoline engine will lift the water.

Steps have been taken to secure a postoffice, and a private school will be maintained for the benefit of the fifty school children now in the colony, until such time as a school district can be formed.

Although their houses are not yet completed, a number of the Mennonite farmers have begun to plow for winter crops. The colonists are of an exceptionally sturdy and industrious type, and are reckoned among the most successful of pioneers.

WANT ESSEE MONEY.
Railroad May Assist Reclamation Work Near Porterville—Giant Tree Dispute Settled.

SPECIAL CORRESPONDENCE OF THE TIMES.
PORTERVILLE (Cal.) Nov. 11.—Several of the high officials of the Southern Pacific were in this city today on an inspection trip. While here an investigation was made by them of the reclamation work being done on the upper Tule River.

The security of investigation included H. V. Platt, a general superintendent of the road; H. A. Averill, the superintendent of the Los Angeles division; Superintendent F. M. Worthington of the local division, and Chief Engineer Norman.

The plan of the work was gone over in detail. While nothing definite was given out as to whether a donation would or would not be made by the Espes to assist the work, it is understood that the report will be favorable.

Several buildings, some filled with green and processed fruits and cereals were today packed for shipment at the office of the Chamber of Commerce for shipment to Chicago as a Tulare county exhibit at the International Live Stock Show.

With the coming of large numbers of German Lutherans to the newly-opened Terra Bella lands, a church has been established by them, and an announcement was made today by Rev. P. F. Barner that construction work will soon start upon a commodious new school building for the children of members of the faith.

At a meeting of the Creamery Association of this section, which includes the operators of Kings, Fresno and Tulare creameries, arrangements were made for serving an elaborate banquet to the delegates to the convention of the California Creamery Operators, to be held here next week. The banquet will be served in the parlors of the Congressional Church, the permission for so doing being obtained from the church's officers after the operators' committee had given assurance that the customary after-dinner clear would be taboo on the present occasion at least.

Capt. C. G. Smith, the superintendent of the sequoia forest in the hills back of this city, has made his annual report on the work of the forest service. He lays special stress upon the fact that there has not been a single forest fire in the sequoia forest during the entire season. Capt. Smith also in his report attempts to settle the question of the largest tree in the world. He gives the honor to "General Sherman," a tree, which he says measures 34 feet 6 inches in diameter, six feet above the ground, and 20 feet in diameter 100 feet above the ground. This is several feet larger than the "Gristle" in Yosemite Park, which supposedly had the honor.

PLAQUES MAY HAVE PLAGUE.
Government Will Find Out If Peaky Squirrels Are Afflicted With Bubonic Disease.

(ASSOCIATED PRESS KNOX REPORT.)
VIRALIA, Nov. 12.—In order to ascertain whether the squirrels in San Joaquin Valley are afflicted with bubonic plague from infected squirrels of the bay counties, L. K. Marshall, representing the government here, will catch a few of the rodents and ship them to San Francisco, where a test for the plague germs will be made.

If the squirrels sent to San Francisco are found to be infected with the plague, the government will take immediate action looking toward the extermination of the pests throughout the valley.

Mathoid Reeling.
Made in France, the best agricultural covering for new or old roofs. There are millions—just on millions—of Mathoids in the world. Mathoid, 13, Security Bldg., and 31 N. Los Angeles St. Main 974, Bakersfield.

BOLD THEFTS.

Horse and Wagon Borrowed to Haul Away Load of Barley—Bread Stolen.

Two unusual thefts were reported to the police yesterday, as having been committed Thursday night. The victims were W. Berghausen, proprietor of a fuel and feed yard at No. 1004 Sunset boulevard, and the Wilkes-Smurr Manufacturing Company, No. 1831 South Los Angeles street.

At the feed yard, the thief hitched a horse used in making deliveries, to a spring wagon, loaded on two tons of barley and drove away. The theft was discovered in the early morning and the detectives were sent out to investigate. They found the horse had been returned to within a block of the yard, but the barley had been hidden.

Five breads were stolen from the manufacturing company. The suspicion of the police is that the burglars used a wagon in carrying away their plunder.

THE OIL INDUSTRY.

SIERRA MADRE CLUB'S TRAIN.

MORE EQUIPMENT ADDED FOR THE EXCURSION.

Party Will Be Strictly Limited to One Hundred and Fifty—Compartment Car Is Put on—Nine Coaches Will Be Run on Thanksgiving Night. Large Coalings Sale.

The Sierra Madre Club has found it necessary to arrange for a ten-compartment drawing-room car to be attached to its special excursion train on Thanksgiving night. The cost of a compartment to be occupied by two will be \$7. It has been decided to limit the excursionists to 150. According to the present plan the train will consist of four standard Pullmans, a buffet car, two diners, a compartment car, and a baggage car. The club's secretary reports the list as rapidly filling with the names of substantial men.

Yesterday the directors of the Chamber of Mines met and heartily endorsed the trip and will urge all members to go who can.

The excursion has already been the means of adding the names of a host of prominent oil men to the membership and they are displaying much interest in the trip.

Large Coalings Sale.
Rosa B. Matkins and associates of Los Angeles have bought the eighty-acre and seven-acre tract on 14-15-16, Coalings, of the Coalings Petroleum belonging to J. R. Baker of Coalings and his three sons, H. H. Welch and S. M. Morse. The price is not made public, but is said to be very large. Mr. Matkins is quoted as saying that he and his associates are looking for other properties. The purchasers are engaged in mining in Mexico. The sellers say they will invest their profits in other Coalings property.

K. T. and O. Pays Forty.
The K. T. and O. (Southern Pacific) is offering 40 cents for daily runs at Coalings and no contracts, the same exactly as the standard. This holds good with contracts leading its hand. Despite all street talk of a higher price from the standard the sellers are still receiving but 40 cents and not a word comes from the big company about more.

Coalings Production.
More than 1,200,000 barrels were shipped from Coalings in October and the storage was increased a few thousand barrels, according to partial figures. September 30 the stocks were reported by the agency as 529,154 barrels.

In Devil's Den.
Portable rigs are being extensively used in prospecting in the Devil's Den. Where oil has been thus found standard rigs are going in to develop. The Bakersfield Californian gives the following data:

The 12-15-16, is down 1100 feet with twelve and a half inch casing. In brown shale, with light oil and gas showing. The True Correlation, 12-15-16, has one 40-foot and one 200-foot hole with a strike of very heavy oil. On 12-15-16 the same company has a similar strike at 325 and the rig on 14 is in the same shale. The 14-15-16, is down 1100 feet with twelve and a half inch casing at 650 feet. The West Side Oil and Development, southwest quarter of 2-12-13, has drilled its No. 1.

Lavence & Barr, northeast quarter of 27-25-13, are said to claim a discovery at 400 feet. Material for a standard rig is being ordered. The Lindsey Incorporated, southwest quarter of 2-12-13, in McClure Valley, is 185 feet deep. The Greaves, 25-25-13, is 180 feet deep. The East Oakland, northwest of 2-25-13, is 105 in its No. 1. Daugherty & Johnson have just spudded on 2-25-13. The Postle has material for a rig on 21-25-13. The Colt, southwest of 2-25-13, is down 624 with a portable rig. The Walker has material for a heavy standard rig on the northeast quarter of 2-25-13. The El Cerrito is still unsuccessfully endeavoring to pump off the water. The Record says that the feeling is more hopeful than it was two weeks ago, but does not give any reason for the change of attitude.

Southern Pacific of Mexico.
Along the line of this new railroad, running from the Gulf of California to the Gulf of Mexico, in the heart of the agricultural lands and rich mineral resources, as well as the Territory of Tepic, are located, in broadest form, the advent of transportation facilities.

The line will open on Sunday, November 25, a special Mexican Section, to be used to transport the country and its resources, both present and prospective. Persons seeking information concerning these Mexican States can secure it by purchasing a copy of the "Mexican States" from the Special Agent in Charge of the Southern Pacific of Mexico, at a cost of one cent.

It ought to be a splendid advertising medium for those having interests in that section, as well as in the entire country. The book is being distributed free of charge, but may be ordered by mail. Advertising copy for the book will be in the Times Office before November 25.

Beer at Tonic.
Old Fashioned Export Beer, a family favorite, can be bought at 11.25 a dozen quarts or 12 a dozen at 11.25. Old Fashioned Export Beer, 11.25 a dozen quarts or 12 a dozen at 11.25. Old Fashioned Export Beer, 11.25 a dozen quarts or 12 a dozen at 11.25.

THE WORLD'S GREATEST CITY.
The title of a most interesting article by H. C. Overland, which will appear in The Times Magazine the coming Sunday.
